Electric O.F.B. with infrared heating elements

The heating elements made from quartz have a power output of 3300 Watt and reach temperatures of 800°C in 5 minutes

Stainless steel drip tray

Moving Drip tray for collecting meat juices

MATERIAL

Stainless steel

Isn't that convenient?

Otto's Electric O.F.B. can be connected to a conventional power socket (socket should be rated for 16A)

Cast iron grill grate

Solid 32,5 x 26,5cm cast iron grid – enough room even for the biggest Porterhouse
