

WINDI 5 Blast Freezer 5 Tray

CUISINECRAFT®
CUISINE TECHNOLOGY & SOLUTION

Certificate: CE

Voltage :	220-240V~50Hz	Capacity :	5 xGN1/1 EN60x40 (530x325mm)
Power :	540 Watt		
Yield :	90°C +3°C 14Kg 86mins 90°C -18°C 12Kg 238mins	Gross Capacity:	96 L
		Tray Pitch :	9.5cm adjustable
Electric Current :	2.3A	Inner Size :	560x354x325mm
Defrost mode:	Smart + Manual	Overall Size :	700x730x782mm
Condenser Dust Filter :	Yes	Packing Size :	855x820x955mm
Housing Material :	Stainless steel	N.W.(Kg) :	68 kg
Inner Material :	Stainless steel 304	G.W.(Kg) :	98.3 kg
		Temperature Range	-30°C - +25°C

Refrigerant

R290, Eco-Friendly Material

Working Noise

≤60db

Footprint

compact design, footprint is less than by at least 10%-25%

Foaming agent

C5H10 cyclopentane, eco-friendly, Microporous insulation, better heat preservation and more more energy-efficient

Copper tube evaporator

Hydrophilic coating aluminum fin-block thermal expansion valve, good for getting out of water, anti-corrosion, easy to clean, avoid freeze, avoid frosting, good heat exchange efficiency

Throttling device

Selection of capillary, efficient configuration, zero failure rate.

Defrosting

Smart defrosting mode, smart and humanized control, more efficient.

Dust gauze

Dust gauze design, can be removed for cleaning, easy operation, avoid dust in condenser, increase refrigerating capacity

Drainage system

Automatic evaporation draining system

Appearance

Good outlook appearance, safe design

Control panel

Simple control panel design, more humanized control

Housing materials

No finger print materials, easy to remove finger print

MATERIAL

Stainless steel
